EXPERIENCE

Kodo Technologies

- SENIOR PRODUCT DESIGNER DEC 2025 – PRESENT 📍 MUMBAI
 - Leveraged AI tools to accelerate design workflows, generating layout variations, UX copy, user flows, and research synthesis to identify improvement opportunities and reduce iteration time by ~30–40%.
 - Leading screen-by-screen UX audits and iterative redesign across 8+ core product areas including dashboard, teams, login, business accounts, card management, top-up flows, and Kodo Pay (vendor payouts) improving consistency and reducing friction across key user journeys. Supporting the AI Insights interface for Kodo.
 - Leading end-to-end design for a corporate investment platform (currently in development), covering 5+ sections including dashboard, portfolio, fund exploration, and investment journey including an AI assistant interface for activity-based analytics and cash flow-driven investment recommendations.
 - Sole designer owning UI/UX across 15+ feature releases driving improvements across AP agent onboarding, invoice upload UI, filter interactions, bulk actions, fund addition, and navigation.
 - Currently leading the design system initiative. upgrading UI pattern, auditing components, and standardizing typography and color guidelines for consistency and scalability across products

PayNearby

- SENIOR PRODUCT DESIGNER MAY 2025 – PRESENT 📍 MUMBAI

Ownership of key insurance experiences including Motor, Shopkeeper, Travel Suraksha, and Hospicash, driving simplicity and increased adoption. Designed Soundbox Ads and rewards systems, while enhancing the NeoBanking home layout for improved navigation. Rolled out features like RD renewals, FD flows, device detection, and continued design system adoption across products.
- PRODUCT DESIGNER NOV 2023 – APR 2025 📍 MUMBAI

Redesigned Hospicash and Group Personal Accident flows, reducing booking time by 40%. Led product design for AEPS Face Auth, CASA banking (NSDL, Suryoday, AU, HDFC, SSFB) and SHG onboarding. Defined cross-sell insurance experiences and delivered UI for Soundbox, geo-fencing logic, and “What’s New” feature. Supported over 20 feature rollouts across services.
- UI/UX DESIGNER JAN 2022 – NOV 2023 📍 MUMBAI

Supported user testing, audits, and communication UX while actively helping implement the design system into production. Contributed to reducing development time by 50% through reusable patterns and dev-ready assets, design tokens and component library. Designed journeys including AEPS redesign, device selection, MicroATM, Amazon Easy Store revamp, and Mera Stock. Developed modular UI templates for earnings and service reports, enabling reuse across PayNearby services and reducing dev time by 60%.
- DESIGN INTERN SEP 2021 – DEC 2021 📍 MUMBAI

Assisted in designing Money Transfer (DMT) flows for mobile and web using internal design system components. Also worked on companies first Bank account opening service Axis CASA and received mentorship through reviews.

Kwik-Commerce

- FREELANCE UI/UX DESIGNER AUG 2021 – OCT 2021 📍 MUMBAI

Completely re-designed a shipment tracking dashboard for web, enabling users to view deliveries & take quick actions.

Youth Empowerment Foundation
